

ASRORQULOV FARRUHJON

Data Analyst | BI & Reporting Specialist

Tashkent, Uzbekistan • +998 93 814 10 03 • farrukh.analytics.jr@gmail.com • Telegram: @asrorqulov_f
GitHub • LinkedIn • Portfolio Hub

PROFESSIONAL SUMMARY

Results-driven Data Analyst specializing in end-to-end Business Intelligence, automated ETL pipelines, and executive dashboards. Proven expertise in extracting and consolidating fragmented data from multiple ERP/CRM systems (BILLZ, MoySklad, AmoCRM, Bitrix24, 1C) via REST APIs and SQL. Experienced in financial health monitoring, cash flow analytics, accounts receivable tracking, and multi-partner credit/installment payment dynamics (Uzum Nasiya, Payme, Alif). Passionate about empowering business leadership with interactive data models to streamline operations and maximize profitability.

WORK EXPERIENCE

Power BI Dashboard Developer / Data Analyst Team24 • Tashkent, Uzbekistan

Dec 2025 – Present

- **Cash Flow & Executive Dashboards:** Architected comprehensive BI dashboards integrating revenue, stock levels, operational expenditures, and cash flow forecasting across retail and distribution sectors.
- **Accounts Receivable & Debt Aging:** Formulated debt monitoring matrices to track client credit lifecycles, overdue repayments, and debtor turnover, optimizing working capital liquidity.
- **Payment Partner & Installment Analytics:** Processed multi-channel sales and split-payment records across providers (Uzum Nasiya, Payme, Alif), evaluating partner share distributions and revenue realization.
- **Automated API Data Pipelines (ETL):** Developed automated ingestion scripts connecting external CRM/ERP platforms (BILLZ, MoySklad, AmoCRM, Bitrix24) and Google Sheets directly to reporting semantic models.
- **SQL Querying & Database Preprocessing:** Extracted and structured heavy transactional logs and ERP/1C datasets using SQL (PostgreSQL, MS SQL) for high-performance dashboard loading.
- **Data Modeling & Advanced DAX:** Built optimized star-schema architectures, granular time intelligence calculations, dynamic KPI cards, and custom DAX measures.

FEATURED PROJECTS & CASE STUDIES

- **Distribution & Retail Executive Analytics (SOTTEL):** [Power BI, REST API, MoySklad/BILLZ, DAX]
Built an automated 4-page executive cockpit consolidating daily gross sales, warehouse inventory turnover, supplier payouts, and a 7-day predictive cash flow model.
- **Jewelry Sales & Store Operations Suite (Ruzgar):** [Power BI, Google Sheets, Power Query, Financial Modeling]
Designed an operational intelligence system tracking gold/jewelry gram weights, scrap exchange (trade-in), factory procurements, and multi-store net profitability.

TECHNICAL SKILLS

BI & Data Visualization: Power BI, DAX, Power Query (M), Data Modeling (Star Schema), Interactive KPI Dashboards, Figma (UI/UX)

Querying & Programming: SQL (PostgreSQL, MS SQL / 1C data extraction), Python (Pandas, NumPy, Matplotlib, Requests)

ETL & Cloud Integrations: REST APIs, CRM/ERP Connectors (BILLZ, MoySklad, AmoCRM, Bitrix24, Google Sheets), Automated Pipelines

Office & Tooling: Microsoft Excel (Advanced formulas, Pivot Tables), Git, GitHub

EDUCATION

Bachelor of Science in Civil and Structural Engineering Samarkand State University of Architecture and Civil Engineering

2021 – 2025

Vocational Diploma in Technical Studies Academic Lyceum at Gulistan State University

2019 – 2021

CERTIFICATIONS & TRAINING

- **Data Analytics Comprehensive Program** — Najot Ta'lim
- **Data Science Specialization (Certified)** — Mirzo Ulugbek Vorislari
